

Script:- obj\paris2\zoomy_cam.sma

No script function bindings.

To set constraints:-

Send NM_USERINIT 4 times (create a group, and bind it to NM_INIT)

NM_USERINIT Param (constraint angle in degrees) : Set up minimum X angle

NM_USERINIT Param (constraint angle in degrees) : Set up minimum Z angle

NM_USERINIT Param (constraint angle in degrees) : Set up maximum X angle

NM_USERINIT Param (constraint angle in degrees) : Set up maximum Z angle

Tha's it...
