"The best possible sequel to the best bloody game in existence"
Empire

RELEASE DATE
JUNE 1999

GENRE
ACTION/ADVENTURE

BACKGROUND

The Golden Mask edition includes the original Tomb Raider II plus a separate disc featuring four brand new levels. The new levels have been created with the same game-engine and technology as used for the development of Tomb Raider II. During her day to day research Lara stumbles across a faded photograph showing an Inuit Whalehunter holding what looks like an ancient Golden Mask - rumored to be the famed Golden Mask of Tornarsuk, a unique magical artifact. However she's not alone in her new adventure: this time there are others who have a seemingly fanatical interest in the mask.
